## OF REVENUE FOR 1910-11 AND 1911-12.

General causes of Increase or Decrease above £ 100.

Attributable chiefly to increased importation of flour owing to a fall in prices and to the importation, during the second half year, of an extraordinary quantity of leaf tobacco. There was an appreciable decrease in the importation of wine, principally on account of financial depression.

Due to increase in quarantine dues owing to the fact that longer periods of quarantine were imposed on arrivals from infected countries.

Due, principally, to larger amount received in 1911-12 for fees on licences for the retail of wines and spirits, and licences to carry fire-arms for sporting purposes, and to heavier fines inflicted by the Superior Courts.

Fluctuation.

Due mainly to increase in number of acts filed in the Superior Courts and of judgments delivered by those Courts.

Due chiefly to : — Discontinuance of deposit of coals on wharves ; falling off in the sale of badges for dogs owing to the large number of dogs destroyed ; fewer students in the University and Lyceum ; diminution in the Public Registry Fees owing to a reduction in the number of transactions in Immovable Property ; and falling off in Abattoir fees, due to a decrease in the number of animals slaughtered.

Due mainly to issue of postage stamps in accordance with the new colour scheme, increase in the number of parcels received, and to part payment of an outstanding balance due for International transit rates by the Ottoman Postal Administration.

Due chiefly to sale of unserviceable stores.

Heavier consumption by the Army and Navy.

Due, principally, to payment by War Department in 1911-12 of a bill for current supplied during 1910-11.

Due chiefly to collection of arrears of previous years.

Due, mainly, to the fact that the profit realised by the Savings Bank was greater than in the previous year owing to income tax paid on dividends received in 1910-11 having been refunded in 1911-12, instead of in 1912-13.

Due chiefly to sale of Public Works unserviceable stores and to transfer from Deposit Account to Revenue of the proceeds of dutiable goods sold by auction in May 1910 under Ordinance VII of 1909.

## OF EXPENDITURE FOR 1911-12.

General causes of Increase or Decrease above £ 100.

Increase due to payment in 1911-12 of interest on "Massa Frumentaria" which remained unpaid in previous years, and to the dividends on Colonial Securities having been paid free of income tax during the latter half year of 1911-12 owing to which more interest was paid to the Savings Bank.

The amount of pensions and gratuities granted during the year exceeded the amount of those that ceased.

Due principally to the re-organization of the Councils and Lt. Governor's Establishments, the holding of only one bye-election, and to the fact of there being only one Unofficial Member of the Executive Council during a great portion of the year.

Increase due to transfer and promotion of clerks, periodical increments of salaries, purchase of revenue stamps and Savings Bank pass books.

Due principally to purchase of motor boats, expenditure in connection with quarantine restrictions, and special repairs to the revenue ketch.

Due to less expenditure on renewals in permanent way and to the fact that no special works were carried out in Railway stations during 1911-12.

Due mainly to periodical increments of salaries, triennial supply of capes and blankets, training of two officers with the Royal Irish Constabulary, purchase of bicycles, and additional expenditure on transport in connection with the Coronation Festivities and the visit of Their Majesties in 1912.

Due to extraordinary expenses incurred in connection with the prevalence of cholera.

Due chiefly to periodical increments of salaries and to expenditure on clothing, bedding and rations owing to an increase in the population of the prison.

Attributable principally to expenditure incurred on employment of additional medical men, servants and attendants owing to the prevalence of cholera, and increased expenditure on provisions, clothing, bedding, &c., due to the addition of nurses and beds in the Connaught Hospital, to an increase in the number of patients at the Lunatic Asylum, to improvement in the scale of rations of attendants and servants at the Poor House and Lunatic Asylum, and to the purchase of a complete equipment for the Female Leper Hospital.

Due mainly to periodical increments of salaries and appointment of additional monitors and monitresses.

## OF EXPENDITURE FOR 1911-12—(cont.)

General causes of Increase or Decrease above £ 100.

Due to increased expenditure on maintenance of the Government Experimental Farm in Malta, extraordinary expenditure incurred in the destruction of the "Fluted Scale Insect", and to the fact that the subsidy to the Gozo Agricultural and Industrial Show and of the allotment for maintenance of the Gozo Experimental Farm were not paid, in 1910-11.

Due, mainly, to increase in drawback paid to the Imperial Government and in the amount refunded for revenue overpaid; increase in expenditure on maintenance and repatriation of distressed Maltese abroad; and expenses in connection with the taking of the Census for 1911, and with the refugees from Tripoli, the Coronation Festivities and the Royal visit.

Due to periodical increments of salaries, purchase of a rotary type duplicator, and increased expenditure on maintenance of the Drainage System.

Due principally to cost of providing and erecting a Steam Alternator and Switchboard at the Electric Light Central Station.

Due to a falling off in expenditure on maintenance works.

Fewer new works in 1911-12.

# COURSE OF EXCHANGE.

FOR THE YEAR 1911-12.

*Exchange*—Rates of exchange for cheques and bills on London in the course of the year remained nearly invariable.

Since the abolition of the ad valorem duty on 3 d/s bills, by the English Stamp Act, there has been no difference in the exchange between cheques and 3 d/s bills.

## COINS.

Pursuant to an Order of Her Majesty in Council of the 24th September 1886, British Coins are the only legal tender in these Islands and the limit up to which Silver and Bronze Coins are received is raised to five pounds and one shilling respectively.

Twenty franc pieces and five franc pieces, both French and Italian, are now merely kept in deposit as articles of merchandize for exportation to the neighbouring centre of Trade such as Tunis, Tripoli, Bengasi, Syria and Sicily. when a demand arises for them for the purchase of produce, or for the payment of bills payable in Francs or Italian currency.

The currency consists of British gold and silver:—gold coin below legal tender weight is rejected. The system of making payments by cheques has been adopted by the whole Commercial community.

In February 1904 the Government made arrangements for the deposit of public moneys in the Anglo-Egyptian Bank, Ltd., Malta Branch.

## CIRCULATION.

The British gold coin held in Malta fluctuates according to the sums imported and exported and the requirements of the Fleet. It is at present roughly estimated at

Sovereigns	...	...	...	...	...	£ 450,000
Half-Sovereigns	...	...	...	...	...	15,000
			Total	...	...	£ 465,000
British silver and bronze coin...		...	...	...	...	25,000
			Specie	...	...	£ 490,000

The amount of note circulation, which is restricted to the notes of the Anglo-Maltese Bank and the Banco di Malta, cannot be ascertained, inasmuch as these Banks do not publish their accounts and they are not subject to any statutory control.

ACCOUNTS KEPT.

By Government in Sterling.

By Commerce likewise in Sterling. A few merchants, however, of the Marina and Casais (villages) still continue to keep their accounts according to the old style in Scudi, Tari and Grains:

One Maltese Scudo is generally reckoned at 1/8.

A Grain                      "                      "                      -/0-1<sub>9</sub>.

Twelve Maltese Scudi are „ 20/-or £1 Sterling.

The Maltese coins have been demonetized: Coins to the nominal value of about £ 12,000 were withdrawn from circulation in November 1886.

I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

The Prison is on the mixed cellular system as regards the criminal ward. The separation is complete as regards prisoners undergoing hard labour of the first class for the first twenty eight days — After this period, prisoners are employed on hard labour of the second class, in association as far as practicable.

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The prisoners while in association, are supervised by Warders in the Male Division, and by Sisters of Charity in the Female Ward.

III. How many cells are there and how many wards?

There are 264 separate cells, and eight wards.

IV. Taking the average number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

In the Criminal wards there are 1,120 cubic feet of space for each prisoner in 78 cells, and 1,260 cubic feet in 186 cells.

V. How are the prisoners classified?

Long sentence prisoners are sub-divided into three grades, viz :— lower, middle and upper—six months good conduct being required before passing to the middle grade, and three months to the upper grade.

*Questions.*

*Answers.*

I. If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

It is not on a separate system, and no effectual separation can, as a rule, be enforced either by night or by day, owing to the fact that the premises are defective and ill suited for the object for which they are intended, viz :

1. The temporary detention of prisoners, sentenced during the day, until their removal to the Corradino Prison in the afternoon.
2. The temporary detention of persons apprehended in the evening or by night until the next conveyance to the Corradino Prison.
3. The temporary detention of prisoners escorted from the Corradino Prison early in the morning to undergo trial before the Magistrates, or before H. M's. Criminal Court or to communicate with their legal adviser.
4. The detention of prisoners sentenced to not more than three days.

II. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

They are occasionally supervised, day and night, by the Keeper of the Prison and by the Inspector and Sergeants of Police on duty at the Main Station.

III. How many cells are there and how many wards?

There are 8 cells now in use; all the others are damp, dark and insanitary.

IV. Taking the average number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

*See Answer No I.*

V. How are the prisoners classified?

A classification is not practicable.

No deaths occurred in 1911-12

XX. (1). What was the sanitary state of the Prison during the year?

Fair.

(2). What were the prevailing diseases?

None.

XXI. What are shortly the rules as to diet?

Detention prisoners who have no means, and all others who are undergoing punishment are fed at the public expense by rations supplied from the Orphan Asylum on requisition by the Superintendent of Police. A day's ration consists of :  
 20 oz. bread ;  
 4 oz. *pasta* made into soup with oil and vegetables ; and  
 2 oz. of cheese,  
 or  
 2 oz. of salt fish,  
 $\frac{1}{30}$  of *mondello* olives.

*Questions.*

*Answers.*

If the Prison is on a separate system, is the separation complete? And if not, what is the separation enforced by day and night respectively?

It is not on a separate system, but the premises admit, generally, of the separation of persons sentenced to imprisonment from others who are under examination or remitted for trial.

I. If not on the separate system, what provision is there for the supervision of the prisoners while in association?

They are occasionally supervised by the Keeper of the Prison, or by the Warder.

II. How many cells are there and how many wards?

There are four cells and three wards, two of which wards have airing yards.

V. Taking the average number of prisoners in gaol, how many cubic feet of space are there for each prisoner during the hours of sleep?

The cells and yards being very spacious, and the number of persons detained in the same limited, no possible doubt can be entertained of the prisoners being too closely confined.

VI. How are the prisoners classified?

## HOSPITAL RETURNS, for the year 1911-1912.

**Central Hospital**—*continued.*QUESTION II—*continued.*

(I.) What quantity of Water is available  
each Patient every day?

The quantity of water is practically unlimited. There is a constant supply both of potable and second quality water.

What is the Source of Water Supply?

The potable water is conveyed from a natural spring to a storage reservoir about  $4\frac{1}{2}$  miles from the town and thence by an iron main to the Hospital. The second quality water is pumped from a station about 3 miles from Valletta to a service tank whence it is distributed through iron pipes in the town.

What is the quality of the Water?

The potable water is good in every respect and the second quality water is hard.

(II.) Detail the arrangements as to Baths  
and Lavatories.

The Baths are Rufford and Finch's 1st Class porcelain Baths and are conveniently situated. There are seven lavatories including three lavatories in the building formerly used as Seamen's Hospital. Two are Jennings Lift-up lavatories and five are earthenware basins fixed in marble slabs. The outlet pipes of baths and lavatories discharge into gully traps in the open air and are therefore completely disconnected from the drains.

(III.) What is the system of Sewerage  
and what the condition of the Privies?

Water system. The privies are separated from the Wards and Corridors by means of passages thoroughly ventilated.

## QUESTION III.

Number of Visits of Inspection paid to the Hospital during the year 1911-12.

Specifying the character of the Visit in respect to Notice	And stating the Official Position of the Visitors		
	By the Governor or Colonial Secretary	By a Government Inspector (at Malta the Comptroller)	By a Committee of the Governing Body
Visit by Appointment ...	One by the Governor, and one by a Member of the Royal Commission.	The Comptroller pays surprise visits about twice a week.  The Chief Government Medical Officer visits the Hospital once a month.	Nil

(I.) In reference to the above Table, state whether or not the Register Books were produced on every occasion; and if not, on how many occasions they were not so produced.

The Register Books are inspected by the Comptroller or his delegate.

(II.) And if on any occasion when they were examined, they were found not to be properly made up to date of examination.

The Books were found to be properly made up to date.

(III.) State also how many reports of the following kinds have come under the notice of the Governor:—

- (a) Reports of a Financial and Statistical kind, especially such as show the system on which money and Store Accounts are kept and audited.
- (b) Reports by Person charged with the immediate management of the Hospital.
- (c) Reports by a Government Inspector independent of the Governing Authority of the Hospital.
- (Append copies of his Reports, if any).

These queries do not apply to Malta as all Government Hospitals and Asylums are under the management of the Comptroller of Charitable Institutions, who corresponds with the Lieutenant Governor, as often as is necessary, on all questions of organization, discipline, and finance; and furnishes an annual report on the working of his Department.

## QUESTION III.

Number of Visits of Inspection paid to the Hospital during the year 1911-12.

Specifying the character of the Visit in respect to Notice	And stating the Official Position of the Visitors		
	By the Governor or Colonial Secretary	By a Government Inspector (at Malta the Comptroller)	By a Committee of the Governing Body
Visit by Appointment ...	Nil.	The visits of the Comptroller are sudden and generally take place twice a week.	Nil.
Surprise Visit ...	Nil.	The Chief Government Medical Officer visits the Hospital once a month.	

(I.) In reference to the above Table, state whether or not the Register Books were produced on every occasion; and if not, on how many occasions they were not so produced.

The Register Books are inspected by the Comptroller or his delegates, as he is responsible for the same.

(II.) And if on any occasion when they were examined, they were found not to be properly made up to date of examination.

The Books were found to be properly made up to date of examination.

(III.) State also how many reports of the following kinds have come under the notice of the Governor:—

- (a) Reports of a Financial and Statistical kind, especially such as show the system on which money and Store Accounts are kept and audited.
  - (b) Reports by Person charged with the immediate management of the Hospital.
  - (c) Reports by a Government Inspector independent of the Governing Authority of the Hospital.
- (Append copies of his Reports, if any).

These queries do not apply to Malta as all Government Hospitals and Asylums are under the management of the Comptroller of Charitable Institutions, who corresponds with the Lieutenant Governor, as often as is necessary, on all questions of organization, discipline, and finance; and furnishes an annual report on the working of his Department.

**Seamen's Hospital—continued.****QUESTION II—continued.**

(I.) What quantity of Water is available for each Patient every day?

An unlimited quantity, as the building is directly connected with the aqueducts which supply the town. The supply is constant.

What is the Source of Water Supply?

The water is conveyed from a natural spring to a storage reservoir at about 4 miles distance and thence through iron pipes by pressure.

What is the quality of the Water?

Good.

(II.) Detail the arrangements as to Baths and Lavatories.

Porcelain Baths with hot and cold water laid on, separate from the wards and from privies. Baths are all regularly trapped. Lavatories (earthenware) are attached to the wall, apart from the wards. They are trapped also.

(III.) What is the system of Sewerage and what the condition of the Privies?

The Water system. Privies are separated from the Wards; they are well laid and well trapped. Subsoil pipes (glazed earthenware) are imbedded in concrete for the whole length outside the building, and give into street interceptor.

## QUESTION III.

Number of Visits of Inspection paid to the Hospital during the year 1911-12.

Specifying the character of the Visit in respect to Notice	And stating the Official Position of the Visitors		
	By the Governor or Colonial Secretary	By a Government Inspector (at Malta the Comptroller)	By a Committee of the Governing Body
Visit by Appointment ...	Nil	The visits of the Comptroller are always sudden and take place very often, about twice a week. The Chief Government Medical Officer visits the Hospital once a month.	Nil.
Surprise Visit ...	Two by the Governor and one by the Lieutenant Governor.		

(I.) In reference to the above Table, state whether or not the Register Books were produced on every occasion; and, if not, on how many occasions they were not so produced.

The Register Books are inspected by the Comptroller or his delegates, as he is responsible for the same.

(II.) And if on any occasion when they were examined, they were found not to be properly made up to date of examination.

The Books were found to be properly made up to date of examination.

(III.) State also how many reports of the following kinds have come under the notice of the Governor:—

- (a) Reports of a Financial and Statistical kind, especially such as show the system on which money and Store Accounts are kept and audited.
  - (b) Reports by persons charged with the immediate management of the Hospital.
  - (c) Reports by a Government Inspector independent of the Governing Authority of the Hospital.
- (Append copies of his Reports, if any).

These queries do not apply to Malta as all Government Hospitals and Asylums are under the management of the Comptroller of Charitable Institutions, who corresponds with the Lieutenant Governor, as often as is necessary, on all questions of organization, discipline, and finance; and furnishes an annual report on the working of his Department.

## HOSPITAL RETURNS, for the year 1911-1912.

**Manoel Hospital**—*continued.*QUESTION II—*continued.*

(I.) What quantity of water is available for each patient every day?

An unlimited quantity, as the building is directly connected with the public aqueduct.

What is the source of Water Supply?

A natural spring.

What is the quality of the water?

Good in every respect.

(II.) Detail the arrangements as to baths and lavatories.

There are two bath rooms fitted, respectively, with a Roman cement bath and an enamelled iron bath, with hot and cold water laid on. Movable zinc baths are also used in the wards. There are two Roman cement baths in the small-pox division. As to lavatories, basins on moveable stands are used in the wards.

(III.) What is the system of sewerage and what the condition of the privies?

Water system. There are seven closets in the yard completely isolated from the wards and supplied with "Crown" basins and waste water preventers.

## HOSPITAL RETURNS, for the year 1911-1912.

**Manoel Hospital—continued.****QUESTION III.**

Number of visits of inspection paid to the Hospital during the year 1911-12.

Specifying the character of the visit in respect to Notice	And stating the Official Position of the Visitors		
	By the Governor or Colonial Secretary	By a Government Inspector (at Malta the Comptroller)	By a Committee of the Governing Body
Visit by appointment ...	Nil.	The Comptroller visits the hospital by surprise about once a week.	Nil.
Surprise visit ... ..	One by the Governor.	The Chief Government Medical Officer visits the hospital once a month. He visited the hospital daily during the Cholera epidemic.	One by a Member of the Royal Commission.

(I.) In reference to the above Table, state whether or not the Register Books were produced on every occasion; and, if not, on how many occasions they were not so produced.

The Register Books are inspected by the Comptroller or his delegates.

(II.) And if on any occasion when they were examined, they were found not to be properly made up to date of examination.

The Books were found to be properly made up to date of examination.

(III.) State also how many reports of the following kinds have come under the notice of the Governor:—

- (a) Reports of a financial and statistical kind, especially such as show the system on which money and store accounts are kept and audited.
  - (b) Reports by person charged with the immediate management of the Hospital.
  - (c) Reports by a Government Inspector independent of the Governing Authority of the Hospital.
- (Append copies of his Reports, if any).

These queries do not apply to Malta as all Government Hospitals and Asylums are under the management of the Comptroller of Charitable Institutions, who corresponds with the Lieutenant Governor, as often as is necessary, on all questions of organization, discipline, and finance; and furnishes an annual report on the working of his Department.

\* Including the Infirmaries the Criminal Ward and those, forming part of a detached building on the grounds of the Asylum, designated the Agricultural Colony, where quiet patients chiefly belonging to the agricultural class are kept.

What is the source of the Water supply; the quality of the water; and the amount of water available for each patient every day?

A natural spring, at a distance from the Asylum; the quality is good, and the quantity available for each patient every day is between 20 and 25 gallons for all services. Water for drinking is supplied under pressure from the aqueduct.

What is the No. of (I) Lavatories?  
(II) Baths? †  
(III) Latrines?

26. (Marble shelves with earthen basin).  
26. (19 Carrara and seven porcelain).  
34. (25 in Wards, and 9 in the airing Courts), the former are built in projection and provided with cross ventilated anterooms and paved with marble. The troughs are provided with ventilating shafts and are flushed automatically.

What is the system of Sewerage?

A main sewer outside the building receives branches from all the latrines, bath rooms, sculleries and wash houses, and discharges its contents on the grounds at a distance from the Asylum. The whole system is provided with ventilating shafts and has an automatic and periodical flushing. The sewage is used for irrigation.

† A small building in Central Yard is supplied with all necessary hydropathic appliances for curative purposes.

## LITERARY INSTITUTIONS.

No. of Inmates in 1911-1912	How supported	REMARKS
128	BY GOVERNMENT Hospital dues are levied in certain cases— <i>Vide A page 9.</i>	For Orphans of both sexes between the age of 6 and 16. With few exceptions, the children have lost both parents. The building was formerly the Hospital for Men.
3017		This Institution is for the reception of Male and Female patients; and since the Seamen's Hospital formerly attached to it was removed to the Zammit Clapp Hospital at St. Julian's on 29th August 1911, it contains 230 beds.
44		This Hospital, which was opened on the 20th March 1882, was closed on 29th August 1911 and transferred to the Zammit Clapp Hospital at St. Julian's. The premises were added to the Central Hospital.
175		Hospital for infectious diseases.
50		Opened on 29th August 1911 in the premises of the Zammit Clapp Hospital. Capable of containing 13 beds intended only for seamen, who contribute 2/6 per day each for their maintenance and treatment.
603		Enlarged in 1850. Capable of containing 72 patients—42 Males and 30 Females. This Hospital is partly used for convalescent patients from the Central Hospital.
417		This Hospital, which was equipped at the expense of His Royal Highness the Duke of Connaught, was formally opened by His Majesty the King, on the 22nd April 1909. It contains 95 beds, and is principally intended for cases of Phthisis.
882		Hospital for mental disorders. The building is situated at <i>Wied Incita</i> , between Notabile and Attard. It was opened on the 16th of July 1861, on which day the patients were transferred thereto from the Asylum at Floriana.
1199		For the reception of the aged and disabled poor, above the age of 60, and of persons affected with incurable diseases, of both sexes: women who have led a dissolute life and are anxious to repent; and foundling and deserted infants until nurses can be found for them in the country, or they become of age to be admitted into the Orphan Asylum. A portion of the building is fitted up as a Hospital for women suffering from Venereal Diseases.
68		For Male Lepers. The law will soon be applied to Female Lepers, the necessary accommodation having been provided.
646		For both sexes, and capable of containing 60 patients.
187		Accommodates 160 aged and disabled poor (50 of each sex) above 60 years of age, with few exceptions, there being no Institution for incurable cases in Gozo.
8		Hospital for contagious diseases.
